PARTNERS BEYOND GROUNDWORKS

Achievements:

Addison has gained a **solid understanding of key engineering tools** such as the total station and pipe laser.

Noteable project:

Huddersfield University (Externals Package): Where he truly felt engaged in his role and began developing a deep understanding of engineering.

Favourite aspect:

Addison appreciates the **teamwork and camaraderie** among the crew, highlighting how everyone pulls together to get the job done efficiently.

Skill for life:

Time management – Learning to plan ahead has helped Addison stay ahead of tasks, preparing effectively for what's next on-site.

What's next?:

Addison is focused on **developing his engineering knowledge** while progressing through his college course. His long-term goal is to establish himself as a **capable site engineer** at GRK.

Addison says:

Being an apprentice at GRK has given me a strong foundation in engineering, with plenty of support to ensure I feel confident in my role and fully understand the tasks I'm completing.
