PARTNERS BEYOND GROUNDWORKS

Achievements:

Joel has completed his SMSTS course, developed strong teamwork and communication skills, and gained the ability to work independently.

Noteable project:

West Yorkshire Fire and Rescue project: Joel takes great pride in this project, having engineered the external works independently.

Favourite aspect:

Joel values the **collaborative spirit** at GRK, where everyone is willing to support and help each other grow.

Skill for life:

Joel has developed his teamwork, recognising how **working together** makes site operations more efficient and effective.

What's next?:

Joel is passionate about engineering and aims to progress to a **Senior Engineer** role at GRK, continuing to build on his experience and skills.

Joel says:

Being an apprentice at GRK has taught me invaluable life skills - teamwork, communication, and problem-solving.

The experience I've gained has been key to my development and confidence on site.
